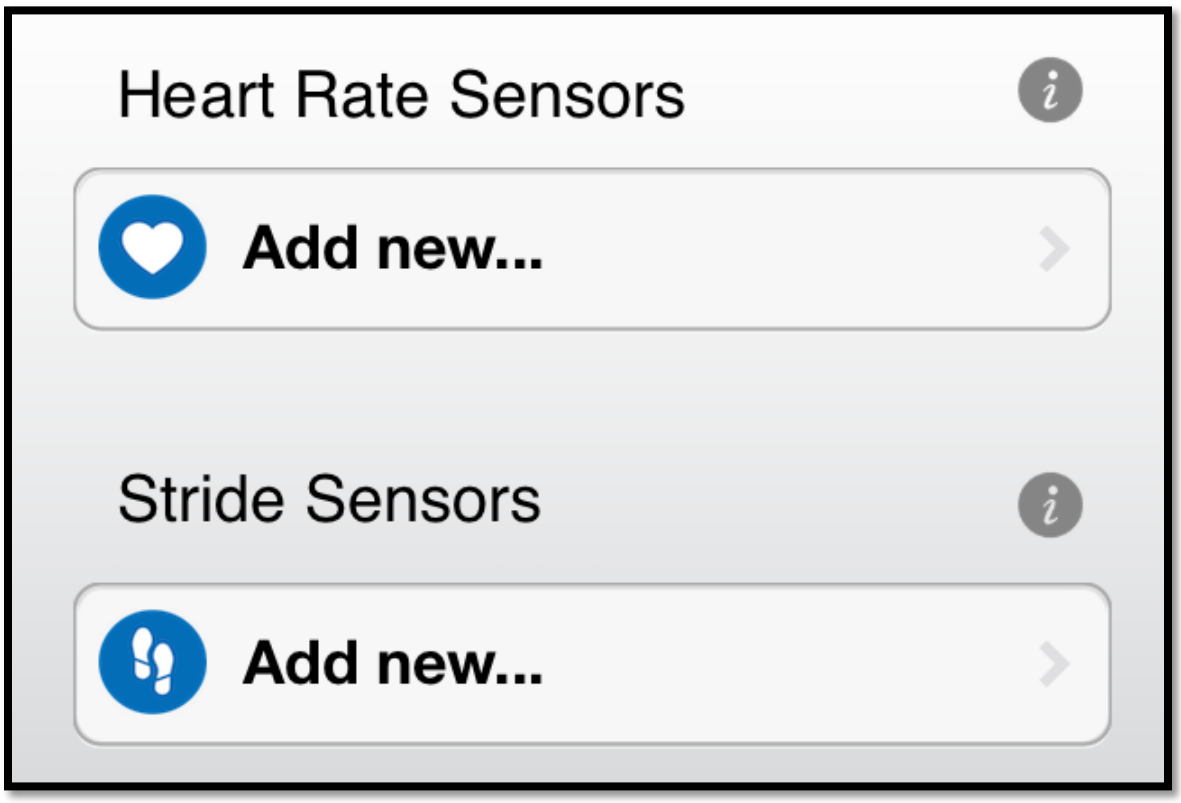
How to Pair: Adidas miCoach (iOS 7)

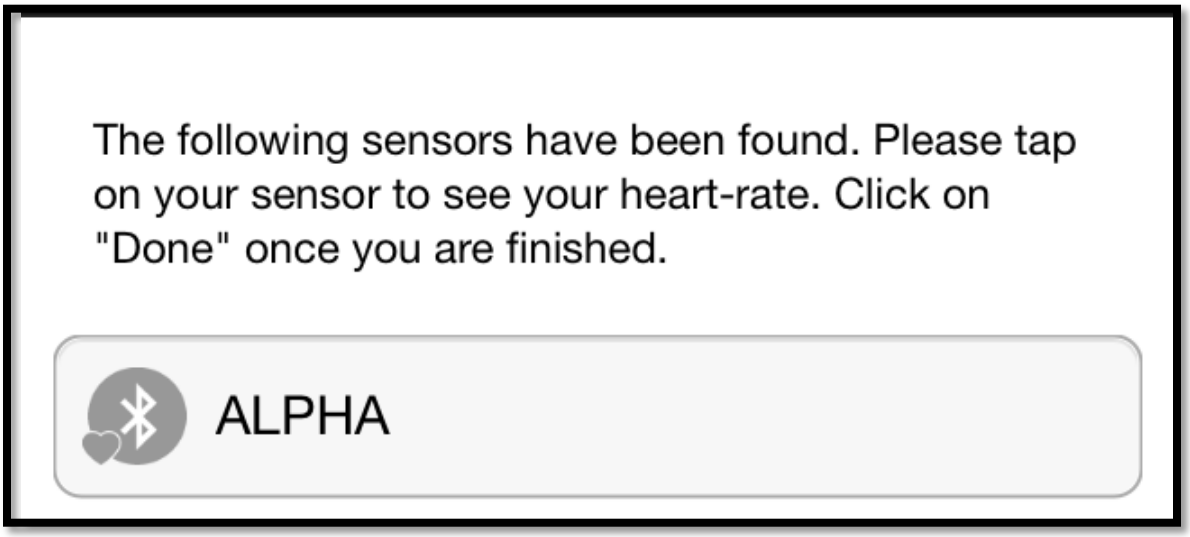
- Launch the miCoach application and select “Settings”.

- From “Settings”, select “Sensors”.

- Under “Heart Rate Sensors”, select “Add New”.



- With your Alpha in Exercise Mode, “Alpha” will populate on the application. Select it to pair.



The following sensors have been found. Please tap on your sensor to see your heart-rate. Click on "Done" once you are finished.
ALPHA

- The Alpha will transmit heart rate, but will not transfer battery data. The application is now paired.
